

How do I work out what goes into my holiday pot?

Working as a Bucks and Berks temporary worker you are legally entitled to paid holiday through The Working Time Regulations (WTR).

If you work 5 days per week you are entitled to a minimum of 28 days (5.6 weeks) paid holiday in any one year. The 28 days includes 8 statutory days/Bank Holidays. If you want to be paid for one or more of those 28 days, including Bank Holidays, you will have to request that payment.

How do we get to 12.07%?

We take 28 days and convert it into 5.6 weeks (28 days/5 days = 5.6 weeks).

A temporary worker, taking 5.6 weeks holiday would be working for 46.4 weeks (52 weeks/year - 5.6 weeks holiday = 46.4 working weeks).

We take 5.6 weeks holiday and divide it by 46.4 working weeks to find out the holiday pay accrued while working.

That gives us 12.07% (5.6 weeks/46.4 weeks = 0.12068 x 100 = 12.07%).

This 12.07% is the percentage of gross pay to fund the 5.6 weeks of paid annual leave.

If a temporary worker does not work 5 days a week, they will still be accruing at the 12.07% rate and will get pro rata paid annual leave.
